Podiatric solutions for an active and independent lifestyle

ALLIED HEALTH & PODIATRY CHAIRS
BTC Company is the result of specific professional experiences gathered together

BTC Medical Equipment develops and manufactures Units and Chairs for Podiatry, Orthotics Grinders, Orthotics Vacuum Press, Static and Dynamic Podoscopes. The R&D Department counts on decades of hands-on experience, and can rely on professional Podiatrists' advice and guidance in order to define the best technical solutions to be adopted on all developed and manufactured equipment. The Company enjoys a higher level of competitiveness thanks to fast and efficient response to all market needs; R&D dept. constantly researches for innovative solutions. Orders are processed and dispatched in shorter time than most competitors in the market, and the range of personalisation available to customers makes BTC equipment custom made to each single Professional request and needs. BTC is constantly committed to the research of new projects and innovative solutions for professional Operators. BTC range of products is designed and manufactured according to the highest quality standards, it follows on from specific guidelines: ergonomic, reliable, easy on the eye design, simple to use for the operators.

Moreover, BTC is involved in every stage upon client selection of the equipment, from interior design to the installation in the cabinet, offering continual functional and technical support.

Acting as a promoter of educational events, such as workshops and conferences, BTC is becoming an authoritative reference point for all the operators.

BTC Plant

The Company has begun developing and manufacturing Units and Chairs for Podiatry professionals Operators expanding its production capacity as the Market appreciation for the products steadily increased over the years.

BTC has doubled its Plant area in 2016 (1,500sqm) and introduced internal Moulds and Thermoforming Division, Installation and Service, while retaining full control of R&D and all production activities.

The Company has developed a widespread and professional Distribution and Service network in Italy with 12 direct Agents, supplying complete Podiatry Equipment Line and all needed instruments/devices to Foot-Care Professionals.

In the past 7 years BTC has started its expansion abroad gaining market awareness and recognition first in France and Spain, where recent success has convinced the Company to continue investing in growing the International Distributors Network worldwide.

BTC is constantly committed to the innovation of design and technical solutions on its range of products.

The strong business relationship with foreign partners enables BTC to keep a deep grip on the ever changing world of Podiatry and its constant need for innovative solutions.

All BTC Medical Equipment is designed, developed and manufactured in Italy.
