GO with the flow!

For your active patients or others who require less resistance or more ROM.

The newest dimension in Allard carbon composite AFO technology that is recognized worldwide for providing dynamic response without limiting function.
Introducing FLOW technology

We applied Allard’s 20+ years of AFO carbon composite experience and advances in technology to create a new proprietary formula to meet the functional and comfort needs of even more individuals.

- Smoother transition (flow) throughout the gait cycle
- Increased ROM in sagittal plane
- Accommodates lower shoe heel heights
- Accommodates gentler contours of shoe insoles
- More clearance for forefoot in the shoe toe box
- Easier to customize to meet alignment and biomechanical needs

*The specified heel heights are an average, varies slightly between the sizes.*

FLOW
accommodates shoes with lower heel height

ToeOFF\(^{\text{flow} 2 \frac{1}{2}}\)

YPSILON\(^{\text{flow} \frac{1}{2}}\)

15 mm heel height*

7 mm heel height

FLOW
New proprietary formula offers more ROM in sagittal plane

allardint.com
FLOW
The bottom of the footplate is thinner and more level to accommodate gentler footbed contours

FLOW has a lower toe lift that allows for more space in the toe box
**ToeOFF® flow 2 ½**

**YPSILON® flow 1/2**

ToeOFF® FLOW 2½ together with YPSILON® FLOW ½ offers you even more possibilities to find the exact functional solution for each individual need!

---

**Patent pending**
